concerns about this project.*

WisDOT presents US 12 project update

Public information meeting scheduled

WisDOT will present project update information for the US 12 corridor, Sauk City to Middleton, at two public information meetings:

When: Monday, October 14, 2002 from 5:00 pm to 8:00 pm

Where: Kromrey Middle School, Library Media Center (LMC)
(use west parking lot)
7009 Donna Drive, Middleton

When: Tuesday, October 15, 2002 from 5:00 pm to 8:00 pm

Where: Roxbury Town Hall
7161 Kippley Road, Town of Roxbury

Project Update

Construction along the US 12 corridor began late this spring on the bridge across the Wisconsin River at Sauk City. The new 900-foot long bridge deck next to the existing bridge is expected to be open to traffic next summer. Once US 12 traffic can drive on the new bridge, the existing bridge deck will be removed and replaced, and the two bridges will be joined together.

In the middle segment of the US 12 corridor, between County KP and WIS 19 West, road builders have been constructing the new four-lane road bed that removes the sharp curves along Springfield Hill. Upcoming construction includes the Middleton Bypass grading that will start this fall. Final real estate acquisition is ongoing on the segments from the Wisconsin River bridge to County KP and from WIS 19 West to County K. These two segments will have construction contracts let to bids in 2003. The US 12 project is scheduled to be completed in 2005.

Meeting exhibits focus on final design and construction staging

Project displays exhibited at each meeting will be identical. The displays will show final layout of the highway and construction staging for 2002 – 2005. Wisconsin Historical Society staff will have an exhibit showing archaeological finds from the project area. Handouts will be available at the meetings to provide the public with detailed information about the project.

Staff from the US 12 design team will be available throughout both meetings to answer questions and explain the project displays. WisDOT real estate specialists will answer questions concerning the property acquisition process that is still ongoing along some segments of the corridor.
